

INTERNATIONAL SCIENTIFIC CONFERENCE

GEOHERITAGE, GEOTOURISM AND GEOINFORMATION

 13–14 November 2026

 **Tirana, Albania**
Department of Geography,
Faculty of History and Philology,
University of Tirana

Within the framework of the project:

“Creation of Geoinformation of Geosites in Albania”

Funded by:

AKKSHI

Albanian National Agency
for Scientific Research and Innovation

CALL FOR PARTICIPATION

The Department of Geography invites researchers, academics, PhD students, experts and professionals from Albania and abroad to contribute with scientific papers, case studies and innovative approaches in the fields of geoheritage, geotourism and geoinformation.

The conference aims to create an interdisciplinary scientific forum for discussing contemporary issues related to the identification, protection, management and promotion of geoheritage, as well as the role of geospatial technologies in sustainable development.

OBJECTIVES

To identify and
promote the values
of geoheritage

To present the
results of scientific
research

To promote
sustainable
geotourism

To promote
geofeducation and
public awareness

To strengthen
academic and
institutional
collaboration

CONFERENCE THEMES

Geoheritage:
inventory, assessment
and conservation

Geotourism and
sustainable development

Geoinformation and
geospatial technologies

Geoparks, geosites and
geoheritage management

Education, promotion and
interpretation of geoheritage
